Dear Dr Darko Lavrencic,

I must apologize for not ~~writi~~ng you sooner but I ~~have~~ been extremely busy with teaching this term. I am very interested in your hypothesis. As I work through it I am taking the liberty of editing the English in case you wish to publish it in the B.M.J. which as you may know now has a special series weekly of ideas, hypotheses etc. If you are in this country do come and see me.

I am very sorry to say that my long-time friend and colleague Dr. Millen died on March 14th 1966.

Yours sincerely,

David Woollam
